DEPUTY

I hope to make this statement and that the contents be considered before all of you now, rather than later. My wife and I have been through so much, that another day of suffering without explaining to all of you what really happened.

First, my wife and I have been married 9 yrs, and have a 7 yr old son. My wife is Georgian, and she is the best thing that's ever happened to me. However one of the worst things we have had to endure is this outrageous case. I served 21 years for the Federal Gov't, and all my evaluations were "excellent". Many cash award bonuses. Not to mention I'm a disabled U.S. Veteran @ 100% disability. I was a Hospital Corpsman, and served 23 private hospitals as a Cardiac Tech x 21 years. I saved "countless" lives in ICU and CCU on many hospital floors, including Madigan x6 years. I also have a Bachelors Degree in Healthcare Administration.

I have never owned any guns. In fact, some would call me "anti-NRA/Gun rights". I have been all my life.

I have been out of work due to an "On The Job" Injury on April 2, 2012. I had surgery on Nov 6th, 2012, and was still recovering. During this time I was being seen by VA mental health up until early 2013. However, when I seen Dr Radant (Seattle VA) in Feb 2013, he said that the VA Prevents their Doctors from writing Medical Retirement letters, so Dr Radant suggested I find someone in the private community to help me. Off the record he supported my reason and need to be retired (i.e. I was assaulted 3 different times. Once by a supervisor, and twice by patients).

VA Retirement section (Donna Broadie, in Vancouver, Wa) started all my paperwork to medically retire. She and Dr. Radant said I might have to try more than 1 doctor to get someone to write a letter. But someone will see the need for your removal from the workforce.

March 2013 I found Dr. Deborah Hickey (in Fircrest) and asked her office if Dr Hickey writes medical retirement letters. Rosemary and Dr Hickey both said she does, and will, but not until she see's me a few times. So I agreed to an Intake appt. knowing that if Dr, Hickey didn't write me a letter, I would eventually Fire her, and get a new Doctor, just like I was told to do.

On June 27th, 2012, I had an appt with Dr. Hickey. After a short start to our 1 hour session, I asked about my letter. She responded that she was NOT going to write the letter, but would extend my absence from work. I told her I felt "betrayed" and lead along x8 visits. Now with only 2 insurance visits left, I had NO CHOICE but to Fire Dr. Hickey and find a new Dr. So I short discussion with Dr. Hickey why I was firing her, and she had the look on her face to KILL. Her face was all red as she sat in her chair "stunned". I then left her office and went home.

FYI, all mental health medications I have tried, all failed. I tried meds x6 months max. Dr Randant and Dr Hickey tried many different meds on me. I felt nothing, therefore I had no reason to continue taking something that wasn't doing anything for me.

After approx. 20 mins at home, I decided to go too Costco in Tacoma. On my way, I dialed the Seattle VA Operator to get the Seattle Police. I had a couple of questions I wanted an answer to. I got those answers from Officer Hadnot. Then decided to call my supervisor Richard Tangen to inform him that I wasn't going to return to work, and that I was seeking a Medical Retirement. As I was entering Costco I seen my sister Lori Proo sitting in the food court as I came walking through the cashiers line that was closed. I softly told Lori that I was on the phone with VA, and then Richard started rambling on and on. Making statements like: "so that blue sign you don't agree with", and "you stopped taking your medication" (I instantly knew there's NO WAY he could have known that. I hadn't been at work for over 10 months, and I never told any employer any medical stuff with me). So I just allowed Richard to continue. Then when he said: "so, you planning on taking out the police"? "so your going to blow up bldg. 81"? "so your going to take out a whole city block"? This gravely concerned me and I stated "Richard, what are you talking about" and he appeared to not want to answer the question and he was searching for help from bystanders, so I said "Richard, this phone conversation is over", and I hung up on Richard. Total call time between Seattle VA (Officer Hadnot) and Richard Tangen (supervisor), equaled 41 mins. These are the "only" 2 people I talked with.

At 5pm that same day, I headed home from my sisters house. Clearly not worrying about any threats I “might” have made. I proceeded into my drive way and was arrested at gun point. Not knowing what was going on, why, etc... I was confused, and my wife and son were out of the country. I knew I made no bomb threat or threat to harm any one or thing. I was arrested for Bomb threat and Felony Harassment bail was set at \$500,000 and I sat in jail x15 months for something I never did. I refused to take a plea for something I didn’t do.

Once in jail, I had nothing but time to think of “why” my own employer would make up such lies, and why the Federal Gov’t “NEVER” wanted this case to begin with.

What “really” Happened After I left Dr. Hickey’s office

1). Dr. Hickey called the VA at American Lake and was patched through to Joel Mitchell. (At trial Dr. Hickey lied and said she never contacted the VA, and she did). If you look at Dr. Tapps recorded “interview” on file, you’ll see that Dr. Tapp states he was “ordered” to call my Med Provider. I only had 1 med provider and that was Dr. Hickey. (Note: I hadn’t been at work for 9 – 10 months due to an on the job injury / surgery so my employer neer would have known such information. Thus Dr. Hickey and Joel Mitchell conversed about me without my consent and violated my HIPPA Rights.

b) Dr. Hickey told Joel Mitchell the phony statement about me wanting to get a gun and shoot and kill 20 people, but never calls law enforcement about these so-called actions.

2). VA employee Joel Mitchell conversed with the U.S. Inspector Generals office in regards to what Dr. Hickey stated. This was not enough to “Elevate the Threat Level”. The IG clearly informed Officer Hadnot that if things changed, then they would re-evaluate the matter. There was “NO THREAT” determined by the IG. Joel Mitchell and the VA Mgt were clearly aware I was seeking a medical retirement, and this made Richard Tangen and Joel Mitchell very mad (these kinds of issues affect Managers bonuses). Thus Joel Mitchell took Retaliatory measures against me by changing Dr. Hickey’s story from Gun Violence to “Bomb Threat and Felony Harassment” so that the local police could arrest me, and I would take a plea, then the VA could fire me.

b) Joel Mitchell’s interview clearly states that he was NOT even at American Lake when I called. He was in Seattle VA the entire time.

c) Joel Mitchell is the “only” person that law enforcement talked to. Fircrest Police Officer Nordlyn stated he took the report from Joel Mitchell and talked to no other VA staff members prior to taking me to jail.

d) I was arrested according to what Joel Mitchell told Officer Nordlyn. However, if you look at Joel Mitchell’s statement 24 hrs “after” the phone call. He “never” mentions 1 thing about a “Bomb Threat” in his statement. How could anyone forget such a serious charge as bomb threat ? Bomb Threat carried a \$400,000 bail to go along with felony harassment \$100,000 = \$500,000.

The Facts

1). Dr Tapp announces 3 months prior to Trial, that he will NOT be attending. Thus meaning my attorney(s) should have requested “Dismissal” at that very moment. My 6th Amendment right was violated at this moment when I wasn’t allowed to Cross-Examine Dr Tapp at time of trial. My lawyers “refused” to address this issue in court and have my case dismissed. I believe this was done with Malice

2) For 30 days, I attempt “unsuccessfully” to get my lawyers to call me or meet with me, prior to trial. But neither DAC lawyer calls me back. I left countless messages for both of them to call me asap. (***NOTE: Please see phone records that support this fact). Remember, any call less than 3 mins, I never actually talked to anyone. I was transferred, and waited the voice mail out to leave my messages.***

3). On day 1 of my Trial, I requested to Judge Whitener to represent myself “Pro-Se”, that was denied without a conversation as to why it was denied. I also informed Judge Whitener that I represented myself before in the city of Puyallup and WON ! My fundamental right to represent myself was violated.

4). Dr. Hickey lies on the stand claiming she never called the VA on June 27th 2015, when Dr. Tapp stated he was “ordered” to call my Med Provider.

5). On day 3 of my Trial, the prosecution informs the Court that Joel Mitchell was not going to be attending today. “AGAIN” my lawyers “refuse” to request a dismissal and ensure my 6th Amendment Right was secured in the process. Instead, my lawyers turned their backs on me. Again my lawyers did this with “Malice”.

6). Day of verdict, I request to be “Pro-Se”, again, my rights were Violated. With “zero” just cause for doing so.

7). My lawyers “never” called me 1 time after trial to see if there were any issues. Had I been allowed to be Pro-Se, I could have submitted my motion for a new trial before the 10 day rule. However, Judge Whitener REFUSED my fundamental right until “after” the 10 day rule for requesting a new trial had eclipsed. Thus protecting the verdict as it was. (again, please see phone records)

8). The day I was “finally” granted Pro-Se, I handed Judge Whitener my motion for a new trial. She refused. I further handed many motions to Judge Whitener, and she refused to hear any of them. She informed me to file sanctions against the attorney’s at the WSBA.

9). I informed Judge Whitener of all the “Unethical and Immoral” things that were going on and have gone on in my case, and she seemed to NOT be bothered that a citizen has proof he was “violated” intentionally in her courtroom, by his own lawyers. This citizen feels that Judge Whitener did everything she could to help the lawyers get a Felony Harassment convictions out of me, even though Judge Whitener never questioned anyone “why” is this trial continuing if Joel Mitchell isn’t going to show up ? Joel Mitchell is my ONLY accuser to law enforcement and he gets a free pass, and he can call Police from anywhere in the U.S. and have people arrested for things he never saw, or was present for to begin with.

10). I asked Judge Whitener a few times “why” am I being treated different than others, and she replied more than once with the same answer “some people don’t like people”. Meaning “none of them like me”, and it’s NOT about the law, or a person’s Constitutional Rights, so liking a person is worth giving some people full rights, and if the Judicial system doesn’t like a person, they help convict them. 11). The Federal Gov’t didn’t take this case because there was “NO THREAT”, and it was “proven” by not elevating the threat level. Thus informing the VA mgt that “if” things had changed, the IG would re-consider it. But the IG was “never” called back, because there were “no changes”. Please see Lt. Hadnot’s statements under oath.

11). Joel Mitchell, being in another city (Seattle) when I called the Tacoma VA, and my only accuser to Law Enforcement; is allowed to make a verbal statement to police to arrest me on those said charges (FH and Bomb Threat), but in his “Official” Statement, he fails to mention anything about a Bomb Threat. Thus leaving me in jail because I can’t make bail on a \$300,000 Bomb Threat, that should have been questioned the “minute” the prosecutor got Joel’s statement the next day. Meaning, the Bomb Threat should have been dropped and my bail should

have been lowered accordingly. FYI, if there was “no” bomb threat, because it was a lie to begin with, the other charge should have been questioned as well.

12). Attached is my cell phone records from approx.. May 2015 – July 2015. The time before and after Trial my lawyers “never” called me, nor did my lawyer ever meet with me “prior” to trial. My whole family was outraged by the lack of efforts by my own lawyers. As you can or will see, I called each lawyer “repeatedly” sometime multiple times a day, and still no return calls. These lawyers are taking a client a Trial with 2 Felonies, and neither lawyer will communicate with the client. Then I address the issue with Judge Whitener prior to trial, and request to be Pro-Se, and a reason why, but not the only reason(s) why. We had no conversation about my request. I even informed Judge Whitener that I had represented myself in a jury trial in Puyallup Wash and WON ! That should have been a clear indication that this citizen is intelligent enough to represent himself as requested.

Furthermore, Judge Whitener also knew that I have a college education and that I have the tools necessary to do it. I believe she denied this solely to go along with what the Lawyers had planned ahead of time (get me convicted of FH) all because none of them liked me. It wasn’t about law, ethics, morals, or anything else deemed so important. But making sure I stayed quite and went along with what they all wanted. **NOTE: any call under 4 mins was “not” a call. It went to switchboard, to voicemail, listen to the greetings, then wait to leave message. Calls over 5 mins were most likely real calls. There are very few of those, only long after trial did such a call occur**

13). My lawyers “never” even built a defense for me by subpoenaing by therapist who declared I never talked about killing anyone x4 yrs seeing him etc... My lawyers also never subpoenaed anyone on my behalf. There was no communication and the last communications were to have many people at trial on my behalf, but none showed up, including Joel Mitchell. Joel Mitchell was on my lawyers “witness list” to subpoena but my lawyers never followed through. My lawyers didn’t want any witness that could get me “acquitted”.

I respectfully request that the appeals court overturn my unlawful, unethical, and immoral conviction, and order a new trial. My family and I have been through so much already with all of this (almost 3 yrs). If necessary, I will file a PRP to continue seeking Justice for this wrongdoing. Rest assured, Dr. Tapp and Joel Mitchell will "NOT" show up if there is a new trial. Thus proving again the Federal Gov't had "no interest" in this case. I even requested that my case be turned over to the Feds, but was denied that request. Pierce County DA office has had other Federal Cases and the Feds clearly showed no interest, and the Pierce County DA's office insist on prosecuting citizens / Federal Employees for things they never did. Then using the system to get convictions to support and protect their wrongdoings before they get "exposed". I have proven that this case was started by a Conspiracy theory in hopes to get me fired from a felony plea / conviction prior to me retiring. But since I retired "before" trial, the VCA Mgt had no interest in sending in Joel Mitchell to the witness stand when Joel was "proven" to have violated my HIPPA rights, and many other rights. So Joel Mitchell got to "call out" the day he was supposed to take the stand, and my DAC lawyers "intentionally" looked the other way, instead of demanding a "dismissal" at the moment it was stated Joel Mitchell wasn't going to attend.

Every citizen has the right(s) to face "ALL" their accusers, and to be able to Cross Examine them at time of trial. Lawyer's representing clients such as this and behave the way and manner in which they have, should be held "accountable" for their actions, just as another criminal has to. It should be a crime for a lawyer to help convict their own client. All lawyers know the basic fundamental rights of trial court, especially Trial Lawyers, and Defense Lawyers. My family and friends all watched this outrageous behavior by so many people. I respectfully request to be put "whole" again by ordering a new trial on my behalf, since my DAC Refused to do so on my behalf when they had many opportunities to do so.

Kind Regards,

Mr. and Mrs. Markus A Overly

RECEIVED
MAR 29 2016

State of Washington v. Marcus A. Overly/Case No. 47970-2-II

CLERK OF COURT OF APPEALS DIV II
STATE OF WASHINGTON

Dear Mr. Overly:

Your attorney has filed a proof of service indicating that you were mailed a copy of the opening brief in your appeal. If, after reviewing that brief, you believe there are additional grounds for review that were not included in your attorney's brief, you may list those grounds in a Statement of Additional Grounds for Review. RAP 10.10.

Because the Statement of Additional Grounds for Review is not a brief, there is no required format and you may prepare it by hand. No citations to the record or legal authority are required, but you should sufficiently identify any alleged error so that the appellate court may consider your argument. Copies of the rule and form are enclosed for your reference.

You must file your Statement of Additional Grounds for Review in this Court within 30 days of receiving your attorney's brief. Send it to the address below. You must also send a copy of the Statement to counsel. The Court will review it when your appeal is considered on the merits.

Court of Appeals, Division II
950 Broadway, Suite 300
Tacoma, WA 98402-4454

Very truly yours,

David C. Ponzoha
Court Clerk
